DIALOG(R)File 15: ABI/Inform(R)

Abstract:
```
...services in light of emerging technology, analyzes the need to
reconcile
products liability law with emerging technologies and with sales law,
and
concludes by offering recommended revisions to the "product"
definition to better accommodate the inevitable expansion of strict
products liability.
```

Text:
```
...are unanimous in refusing to categorize commercially provided
services
as products"240 arguably is misleading because it ignores the wealth of
cases involving hybrid transactions.
```

RECOMMENDED REVISIONS TO THE **PRODUCTS** LIABILITY RESTATEMENT
Although the Products Liability Restatement makes great strides in
providing additional information regarding the definition of "product"
for
strict products liability purposes, this...

...accurate restatement of the common law because strict liability
justifications support all of the exceptions currently included in the
new
Products Liability Restatement.250 This **recommended** broad definition
of **product** would not include any exception for human blood and human
tiSSUe;251 state legislation shielding such transactions from strict
liability obviously would supplant any guidance...an analogous test in
the
U.C.C. context, called the "predominant purpose test," to distinguish
between transactions in goods and transactions in services. See
JAMES J. **WHITE** & ROBERT S. SUMMERS, UNIFORM COMMERCIAL
CODE

1-1 (4th ed. 1995). Under this approach, if the "predominant purpose"
of
the transaction is a sale of...or property is claimed, the question of
liability turns exclusively on whether the goods are defective under
